

# Sage Accounting Solutions

## Data Sheet

### Sage Line 50

Sage Line 50 is ideal for small to medium sized businesses who are experiencing rapid growth. It speeds up procedures through simplifying complex accounting tasks and ending repetitive routines. With three accounting solutions to choose from - Accountant, Accountant Plus and Financial Controller - Sage Line 50 will make a dramatic difference to your business.

Sage Line 50 is easy to set up and use and is based on familiar procedures from manual accounting. There are plenty of on-screen prompts included to let you create, file, access and update all your financial information. Sage Line 50 can be fully integrated with other business software, and is available in both single and multi-user variations.

#### Sage Line 50 - Key Features and Benefits

**Sales ledger** - Maintain accurate customer records.

**Purchase ledger** - Keep track of your supplier records.

**Nominal ledger** - Combine data from all of your ledgers to give you an accurate balance of your accounts.

**Bank ledger/cash book** - Manage all of your bank receipts and payments, including direct debits and standing orders.

**Stock management** - Keep track of what you sell, whether it is a product or a service.

**Sales order processing** - Know exactly which items your customers are ordering.

**Purchase order processing** - Stay aware of all the orders that you generate.

**Invoicing** - Automate the invoicing process to save time and improve the accuracy of your records.

**Financials** - Automatically create your management accounts and VAT Return and carry out budget analysis.

**Fixed assets** - Keep track of the value and depreciation of all your fixed assets.

**Task manager** - Reminds you of actions you need to take and bills you need to pay.

**Passwords and security access** - Set passwords and restrict which areas of the program individual users have access to.

**Multi-company capability** - Run subsidiary company records independently and merge them into a parent company report.

**Multi-user capability** - Allow a number of people to work on your accounts at the same time.

**Reporting** - A wide range of automatically produced and customisable reports are available, including profit and loss, balance sheet and budget reports.

**Historical Data Analysis** - Archive all your company information at the end of a financial year, and build up a complete history of your financial performance.

**Instant Management Information** - Find your fastest moving products, view your profit and loss, and drill down to whatever detail you need.

**Cheque printing** - Save time and prevent mistakes by automatically producing your cheques.

**Error Corrections** - If you have posted a transaction incorrectly, then simply resurrect the situation using the Journal Reversals feature

**Invoice Templates** - Don't waste time re-keying information - set up a 'template' batch invoice, simply change the values and save.

**Foreign Trader Module** - Create quotations, invoices and orders in foreign currencies, handle foreign currency bank accounts, and deal with exchange rate fluctuations.

**Electronic Commerce** - Send and receive quotations, orders, and invoices over the Internet.

**Microsoft Office Integration** - Sage Line 50 links with Microsoft Word, Microsoft Excel and Microsoft Outlook.
